**Important events to be reported:** Signing a Power Purchase Agreement (PPA)

The management of Simtel Team S.A. (the "Company") informs the market regarding the signing of a Power Purchase Agreement (PPA) between the Company and GES Furnizare S.R.L. ("GES") concerning the Giurgiu park, estimated to be completed in the second quarter of this year. GES is part of Simtel group, the Company holding a 62% stake in it, having as object of activity the supply of electricity.

PPA contracts represent long-term agreements for the supply of electricity from renewable sources, offering the advantage of cost predictability as well as the security of supply with the necessary volumes.

The contract was concluded for a period of 10 years, during which the Company will deliver to GES a total amount of approximately 736 GWh of electricity, which will be subsequently supplied by GES to the final clients in its portfolio. The Giurgiu park will meet the energy needs of GES clients starting from the second half of this year.

The signing of this contract reflects the advantages of the ecosystem built by the Company, the electricity produced in the Giurgiu park having secured a long-term beneficiary, while GES consolidates its sources from which it can deliver green energy to its own customers.

**SIMTEL TEAM S.A.**

The Company is considering the conclusion of PPA type contracts for each of the photovoltaic parks that will be built by the Company. Depending on the specifics, capacity and completion date of each park, the Company will determine with which partners these contracts will be concluded.
